Models	Software Version	Comment
A10/A10W/Y501/Y501-Y/Y501W/Y501W-Y	2.12.44.3	

1.1 New Features

1. Supports calling multiple numbers at the same time

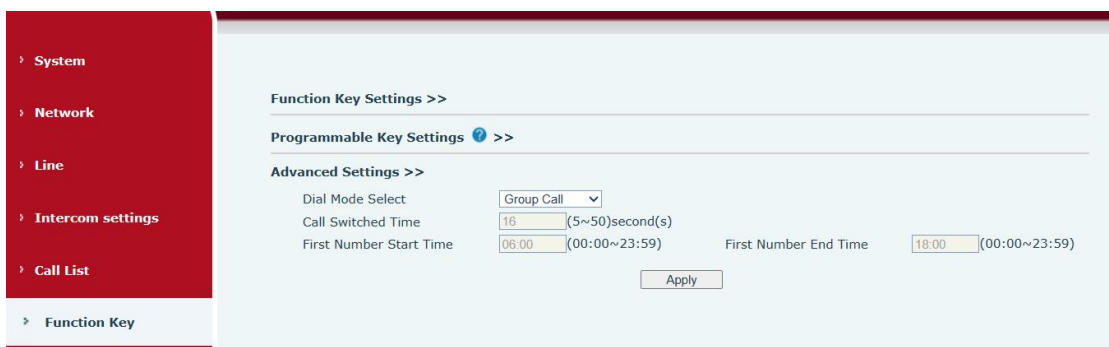

1.2 Optimization

1. Support with intercom broadcasting APP for timed broadcasting, real-time broadcasting and shouting, etc.

1.3 New Features Description

1. Supports calling multiple numbers at the same time

- (1) Function Key>>Advanced Settings>>Dial Mode Select , select "Group Call".

- (2) Set DSSKey1, type as "Memory Key", subtype as "Speed Dial", add multiple IP addresses or numbers, and click Submit.
- (3) Press the Function Key, then it will call out all the numbers at the same time; when one number answers, it will hang up the other numbers automatically.
